# DOME TOP SLEEVE SPECIFICATION SHEET

## MATERIAL

Marlex™ HHM 5502 BN High Density Polyethylene

HDPE, hexene copolymer, is tailored for blow molded products that require excellent stiffness, impact strength and UV resistance. HDPE is designed for an optimum balance of density, molecular weight distribution, demonstrating maximum property advantages for large products. Blow molded HDPE products are durable and recyclable for sustainability. UV stabilizer package is combined with the HDPE. **This product has a six year warranty against fading.**
